

Jethro Oluwaseun Jerry

Software Engineer • Federal Capital Territory, Nigeria • Remote

✉ jethrojerrybj@gmail.com • 🌐 [Portfolio](#) • 📄 [Github](#)

Software Engineer with 3+ years architecting enterprise applications in JavaScript/TypeScript and PHP (Laravel) ecosystems. Led development of applications serving 10,000+ users, achieving 98% code coverage and 95+ Lighthouse scores while reducing system latency by 40%, and established CI/CD pipelines with comprehensive testing across 15+ production deployments.

PROFESSIONAL EXPERIENCE

React Native Developer (The HandyMan Project) @ THE BEST (Startup) 2025 – Present REMOTE, FULL-TIME

- Developed and launched The HandyMan, a cross-platform mobile application using React Native, TypeScript, and Redux for seamless service booking and real-time notifications.
- Integrated RESTful APIs, push notifications, and secure authentication to enhance user experience and engagement.
- Implemented scalable architecture and reusable UI components, ensuring maintainability and rapid feature delivery.
- Utilized ATS-friendly technologies: React Native, TypeScript, Redux, REST APIs, Firebase, and Expo.

Founder & Tech Lead @ THE BEST (Startup) 2025 – Present REMOTE, FULL-TIME

- Founded and set the strategic vision for a tech startup, driving innovation in AI, web, and mobile development.
- Led cross-functional teams using agile methodologies to deliver high-impact projects, including a React Native DSL and a tech community platform.
- Oversaw technical innovation, resource allocation, and stakeholder communication to scale and grow the startup successfully.

Lead JavaScript/TypeScript Developer @ Ignite DSL Project 2024 – Present REMOTE, CONTRACT

- Architected a domain-specific language (DSL) for React Native using .ignite files and folder-based routing (inspired by Next.js), resulting in a 67% increase in developer productivity.
- Developed a custom transpiler to convert DSL code into production-ready React Native applications, streamlining the development process for mobile teams.

Lead Full-Stack Developer @ Aquilla Blog 2024 – Present REMOTE, CONTRACT

- Created a tech community platform enabling users to share knowledge, collaborate on projects, and engage in discussions.
- Implemented scalable architecture with Next.js and MongoDB, supporting 100+ active members with 98% uptime and robust content management features.

Senior PHP Developer & Scrum Leader @ Lincoln College of Science Management and Technology 2024 – 2025

AZATHA ABUJA, FULL-TIME

- Led the scrum team for the School Ecosystem Project, orchestrating agile sprints and coordinating cross-functional tasks.
- Engineered a responsive user interface with TailwindCSS and Bootstrap, and developed dynamic features with JavaScript and PHP.

Web Developer @ IceWebDezignz 2021 KURUDU ABUJA, FULL-TIME

- Developed and customized WordPress websites tailored to client specifications, ensuring optimal performance across devices.
- Integrated essential plugins, maintained security, and collaborated with design/content teams for engaging user experiences.

TECHNICAL SKILLS

Core Engineering

TypeScript/JavaScript
MERN Stack (MongoDB, Express, React, Node.js)
System Design & Architecture
PHP/Laravel
Java
C++/C#

Frontend & Mobile

React/Next.js
React Native
Angular
Vue.js
Redux/Zustand
HTML5/CSS3
Bootstrap/Tailwind CSS
UI/UX Implementation

Backend & Data

REST/GraphQL APIs
Microservices Architecture
MySQL/PostgreSQL
MongoDB/Redis
WebSockets
XAMPP/LAMP Stack

DevOps & Quality

AWS/Cloud Services
Docker/Kubernetes
CI/CD Pipelines
Git/GitHub
Jest/Cypress
Figma/Adobe XD

KEY PROJECTS

Ignite DSL — Lead JavaScript/TypeScript Developer [View Project](#)

Tech: TypeScript

Architected a domain-specific language (DSL) for React Native using .ignite files and folder-based routing (inspired by Next.js), resulting in a 67% increase in developer productivity through simplified code structure and automated navigation.

Aquilla Blog — Lead Full-Stack Developer [Live Preview](#) [View Project](#)

Tech: Next Js, CSS, Node Js, MongoDB, Mail SMTP, PHP, MySQL

Created a tech community platform enabling users to share knowledge, collaborate on projects, and engage in discussions. Implemented scalable architecture with Next.js and MongoDB, supporting 100+ active members with 98% uptime and robust content management features.

EDUCATION

Lincoln University College, Nigeria

Diploma in Computer Software Engineering
Software Architecture & Cloud Computing

2023 – Present

CERTIFICATIONS

Professional Scrum Master I (PSM I)

2024 Completed

CMS Development with WordPress

2021 Completed

SEO Optimization Fundamentals

2021 Completed
